## Water Injection Dredger

Length o.a.	30.33 m
Breadth moulded	10 m
Breadth o.a.	13.2 m
Max. draught	3 m
Bow thruster power	150 kW
Jet water pumps	735 kW
Flow rate pumps	10,000 m <sup>3</sup> /hr
Width sweep beam	12.35 m
Propulsion power	2*735 kW
Total installed diesel power	2,376 kW
Speed	10 kn
Accommodation	6
Built in / Converted	2022

ULE<sup>v</sup>  
ULTRA-LOW EMISSION

With our Ultra-Low Emission vessels, we go for a green and sustainable approach: new vessels are fitted with a state-of-the-art filter system that processes exhaust gases and prevents nanoparticle emissions. Our Ultra-Low Emission vessels can be recognized by their blue funnel.
